*During this* **\$3<sup>79</sup>**  
*Great Sale*

Everyone Can Afford  
This Most Needed  
Household Article At Our  
Low Sale Price.

Here's a vacuum suction cleaner and sweeper, the kind that sells everywhere for \$10.00, at a price that is about the same as you would pay for an old-fashioned carpet sweeper. The splendid construction embodies every improved feature. Not only does it thoroughly vacuum clean carpets and rugs, but takes up lint, threads, matches, etc. Clean your rugs with this machine and they will give double service—not necessary to beat them so often. Made in strong sanitary steel body, enameled and polished in mahogany finish, and striped with gold; nickel-plated and oxidized metal parts. Rubber tire ball bearing wheels.

Three powerful suction pumps insure a constant strong suction. Adjustable for short or long nap rugs. Special lever for releasing brush, permitting operator to use vacuum cleaner alone if desired.

Add this to your order now. We want every customer to have one. Shipping weight, 14 lbs.

JUST  
WHAT  
YOU  
WANT

**\$15<sup>95</sup>**

MAKE  
PLAY  
OF  
YOUR  
WORK

An unusual opportunity for the modern American housewife. Just what you have been hoping to get for about half what is ordinarily asked for its equal.

You don't have to be a domestic science graduate to appreciate the systematic arrangement and scientific features of this cabinet. We cannot urge its purchase too highly, as quality is its keynote. Extra skill, care, labor, brains and money have not been spared to make it of marked superiority.

See how wonderfully well it is made, finished and compactly arranged. No desirable features are lacking. Some of its many merits, as well as the extra articles included free with every one, are described on page 3. Will pay for itself many times over in time, labor, waste, steps and patience saved.

Don't put this off—it is positively the most wonderful kitchen cabinet bargain ever offered and must appeal forcibly to every cultured home woman. Send in your order today. Let us put one of these cabinets into your kitchen at our risk of satisfaction. You will be proud of it for a great many years to come.

# PRICE WRECKING SALE

CHICAGO HOUSE WRECKING CO.

No. 70

HARRIS BROTHERS CO.

PRICES PREVAIL UNTIL SEPTEMBER 15, 1915

## The Reasons for This Sale

**I**F YOU COULD realize the amount of time, thought and energy we have combined to complete this great summer sale, you would appreciate the real value of every offering in this book, and would be amazed at this wonderful opportunity. For months we have been gathering merchandise at various bargain sales, or the purpose of conducting the most stupendous bargain event in the history of this great company. We started our preparations with the intention of making this our Banner Summer Season. To accomplish this result, we have exercised the greatest care in the selection of every offering, and laughed prices to pieces—busted them all to smithereens." We know it is needless for us to tell you this—anyone with ordinary judgment will quickly realize this with but a glance through the pages of this book. We have no competitors—we are peers in our line. Our methods are unique—we employ no old time plodding ideas in the purchase and sale of our stocks.

## The Conditions of This Sale

**I**T IS NECESSARY that certain restrictions be placed on the methods of buying goods from this summer sale. We cannot under any conditions guarantee quantities—in other words, we have a certain supply of these goods, and when they are exhausted it will be impossible for us to replace them. Therefore, we offer all goods subject to quick action and early sale, and in any event we limit the period during which these prices prevail to September 15th. Give us as much leeway as you can in your selections; name first, second and third choice if possible. Trust us to take care of your requirements, and interests—we are just as anxious to please you as you are to be satisfied. Our constant aim is to retain the patronage and good will of our customers.

Make up as large an order as possible. Try and get up a hundred pound shipment, so that you may secure the full benefit of the freight rate required by the railroads for delivery to you. Club together with your neighbors—they will be glad to have you call their attention to such an opportunity. Sales like this occur but once in a life time—it's the wise buyer who takes advantage of them to the limit. Cash in full must accompany all orders. This requirement eliminates useless expenses. Help us give you quick service, by sending cash, and eliminate the vexations that so often arise when goods are sent C. O. D. You are perfectly safe in remitting in full. Our responsibility is unquestioned. Twenty-two years of honest dealing has convinced the public of our absolute responsibility.

## Our Big Catalog

**A**BOUT THE TIME you receive this bargain catalogue, our new Fall Book No. 174, containing very nearly 1,000 pages of genuine bargains, will be ready for mailing. It will have no relationship to this bargain sheet, so don't delay your order for anything you need now. Possibly in the rush of other matters we will overlook sending you a copy of this book. Advise all of our customers and friends to get this issue, and we urge you to notify us if you are overlooked. It's a Free book of bargains, such as you require every day of your buying life, replete with splendid selections of Everything for the Home, Workshop and Field—Everything to wear and eat.

## Our Fame As Price Wreckers

**O**UR COMPANY was organized in 1893. Ever since then we have demonstrated our undisputed right to the possession of the title "PRICE WRECKERS." We are that in every sense of the word. We recognize no trusts or combinations of any kind—we buy goods at various sales. No Sheriff's, Receiver's or other sales of any consequence take place without the presence of our representatives. From these sales we secure the best merchandise obtainable. Satisfaction to our customers has been our by-word at all times, and if you get the habit of buying here, you will get everything you are entitled to—one hundred cents worth for every dollar you invest. This price wrecker is a step in advance of anything we have heretofore undertaken—it's the biggest bargain opportunity of the century; the greatest offer of merchandise ever presented to you—the opportunity for making an absolute saving of  $\frac{1}{4}$  to  $\frac{1}{2}$  or more, in the purchase of staple merchandise and supplies.

## Parcel Post

**T**HE CONVENIENCE and economy in parcel post shipments is well known to almost everyone. We can ship a large portion of the bargains offered in this book by mail and increase your savings. We can now ship a package in the first, and second zones up to a weight of 50 lbs., and in other zones up to 20 lbs. **DISTANCE NAMED BELOW IS FROM CHICAGO**

1st zone—not over 50 miles—first pound, 5c; each additional pound 1c up to 50 pounds.

2nd zone—350 miles—first pound, 5c; each additional pound 1c up to 50 pounds.

3d zone—300 miles—first pound, 6c; each additional pound, 2c.

4th zone—600 miles—first pound, 7c; each additional pound, 4c.

5th zone—1,000 miles—first pound, 8c; each additional pound, 6c.

6th zone—1,400 miles—first pound, 9c; each additional pound, 8c.

7th zone—1,800 miles—first pound, 11c; each additional pound, 10c.

8th zone—over 1,800 miles—first pound, 12c; each additional pound, 12c.

Fractions of a pound count for a full pound. Packages weighing less than four ounces are sent at the rate of 1c per ounce to all parts of the United States. All you need to know is the distance you are from Chicago, or get the information from your postmaster. Packages ordered shipped by parcel post must have the postage prepaid, therefore, be sure to include sufficient postage to cover carrying charges. If more than enough is sent, trust us to return the over amount.

## Our Binding Guarantee

**M**AKE YOUR SELECTIONS with absolute confidence in us and this book—you cannot possibly go wrong. We say to you—no matter what you buy from us, if your purchase does not come up to our representations and your expectations in every way, drop us a line explaining the nature of your disappointment. We will very gladly take back such unsatisfactory merchandise at our expense, and refund the purchase price in full, or we will make such restitution as the case requires. We are not perfect, but we are trustworthy, and honest in our dealings. We want everyone who buys from us to have that feeling of absolute trust in our integrity. Our responsibility is unquestioned. Every statement we make and this guarantee are backed by every penny of our ten-million-dollar capital. Any Bank, Express Company, the Publisher of any Paper or any merchant, anywhere, will attest to our unflinching responsibility.

## GREATEST CABINET BARGAIN EVER OFFERED!

If you want a kitchen cabinet of which you will be proud for the remainder of your days, be sure and see the one illustrated on the inside front cover page. You will never regret its purchase.

### Here Are Some of its Many Special Features:

Tilting metal flour bin, with Venetian glass front, and after attachment.

Roomy dish and cereal cupboard, white enameled, with two Venetian glass doors.

Swinging, glass, self-feeding sugar bin.

Ten piece Arts and Crafts set of glassware, including coffee, tea and six spice jars,—glass measuring cup and salt dish.

Utensil hooks, cook book and extract bottle racks on swinging doors to large compartment. Entire top is white enameled inside and special corner blocks eliminate hard-to-get-at corners.

Sliding nickeloid top with rounded corners and edges. Reversible bread and chopping board.

Roomy utensil base cupboard with sliding wire rack,—pan rack and rolling pin holder on door.

Two large drawers, one divided for knives, forks and spoons. Rack for dish towels.

Extra large, non-rusting metal bread and cake box, with sliding top.

Height of base, 33½ inches; length, 42 inches; depth, 27½ inches. Total height, 71 inches.

Made to retail for \$30.00, and worth every cent of it. Shipped from Central Indiana. Shipping weight, 230 pounds.

Made of select figured oak throughout, with light golden, water-proof wax finish.

Stronger in construction, handsomer and better than most other \$30.00 cabinets.

Rounded corners throughout, ball bearing casters. Non-warping panels and drawer bottoms. Dove-tailed drawers and frame. Worthy of the finest kitchen in the land.

Return at our expense if unsatisfactory for any reason. See our sale prices on inside front cover page.

HARRIS BROTHERS CO., CHICAGO.

# Tables and Buffets at About Half Price

## Look at This Snap!

If you want a table of great elegance and superior finish—one built to last you your entire lifetime—with all modern features of the best tables, order this. You can have it in the nine most desirable sizes.

Made of solid quarter-sawed oak throughout, veneers being used in the top, barrel or platform base. The top is hand polished and securely braced and finished beneath to prevent the slightest warping. Heavy, moulded rim. The shapely, massive pedestal has eight beveled sides and an attractive collar at the base. Extra large and firm platform base, with scroll feet and excellent casters. Top extends to 6 feet without the pedestal dividing. Greater length tables have the best duostyle pedestal lock. All sizes are fitted with a greatly improved top lock. The leaves are of solid quartered oak, 10 inch pedestal. Weights, 180 to 250 lbs. Shipped from Chicago. Any oak finish. Specify which is desired.

# World's Greatest Range Bargain

## A Real \$40.00 Range for \$20.95

\$20.95 as shown

**Order Now—After This Sale the Prices Will Be Increased**

Worth double our price because of:

Extra heavy cast fire box lining—35 pounds in smallest size.

Uniformly heating oven, guaranteed to bake without extra fuel. Rust-resisting body and high closet—three times as durable as blue steel.

Firebox and flue space as large as in the most expensive range. Oven full width, making the range of generous size and heavy weight.

Roomy high closet has balanced roll front door and heavy nickel-plated cast standards and shelves.

Main top has six cooking covers—one nested and on simmerer or non-scorching lid for cereals. Pouch features lift-up broiler door.

Left end of body is cast iron, with slide draft. Best pig iron used for all cast parts. All flues are triple, being lined with heavy asbestos board and iron plate.

The fire box has linings for hard coal, soft coal or wood. Width, 7 inches. Length for coal, 18 inches. Length with extension pocket for wood, 22 inches. Space between lid and top of grate 8 1/4 inches. The back wall is in three sections, one being heavier than the entire fire-back in many ranges. Improved duplex grate. Drop wood feed door. Large ash pan.

The oven, of heavy steel, is strongly riveted—cannot bulge or warp. The oven door is of balanced spring type, opening level with the oven bottom. Unbreakable oven door catch and sanitary base. Warranted thermometer.

The smooth nickel trimmings are of the latest colonial design, as shown, guaranteed not to flake or peel.

The reservoir is built so that the heat circulates clear around tank. A special damper shuts off heat from the reservoir while baking. The removable 20-quart tank is cast in one piece with heavy porcelain lining.

We guarantee this range to be equal in cooking and baking utility to any range made. Material and workmanship are guaranteed against defects for 20 years. If not found satisfactory, purchase price and freight charges will be refunded.

of Our Prices.

Davenport.....\$19.95

### You Who Appreciate Extra Quality:

Here it is—at bargain prices! This is your chance to buy the best davenports ever made for less than the factory's regular wholesale prices.

They can be furnished in two sizes, davenport size (83 inches long) illustrated above; and divanette size (60 inches long) as shown at the right. Both contain a full length double bed measuring 48 by 72 inches.

The ornamental, exclusively designed frame is of choice quarter-sawn oak finished in polished golden, fumed or early English. Proportioned for perfect comfort, seats being of correct height and

just deep enough to rest one's back against the slanting, padded back pillows. The seat is also softly upholstered in cushion effect and has a neat button tufted front. Contains two sets of springs—a rustless, non-sagging, resilient spring for sleeping purposes—and a soft, indestructible spring seat construction. The seat springs consists of extra size oil-tempered coil springs, hand tied and strongly fastened to steel cross slats. Can be closed with bedding, mattress and pillows all in place ready for use. Has no complicated parts to catch, bind or cause trouble.

All metal parts are coated with rust-proof, baked-on japan. One-piece ends extend down close to the floor. Special dust-proof panel back construction—no cloth to tear. Shipped knocked down to save freight. Easily set up—absolutely rigid. An illustrated booklet is furnished which shows how to set it up and operate it.

The bed is absolutely concealed—there are no straps, hinges, bolts or open joints advertising its dual utility. Although extra deep front to back (32 inches) the seat is only 19 inches wide, the extra depth being taken up by the reclining back. The arms are 4½ inches wide, with beveled wedge-shaped ornaments which harmonize with the trimmings on the back, front posts and feet. Back posts have rolling wheel casters, front posts inconspicuous sliding glides,—adding materially to its appearance.

The divanette shown at the right has all of the above features but is 23 inches shorter. Contains the same size bed. Is so marvelously constructed it actually can be opened with one finger. Remember we guarantee these the best ever manufactured and invite the return of any unsatisfactory for any reason whatsoever, refunding purchase price and all freight charges. Shipped from point of purchase in Grand Rapids, Michigan.

Fumed Oak, Spanish Art Leather Seats

This attractive suite will go a long way towards completely furnishing an entire library, living room or parlor. Heavily constructed of solid figured oak, finished in the new nut brown fumed finish. Sold only in sets of four pieces as shown. Shipped carefully packed from central Indiana. Weight, about 160 pounds. The three chairs have spring seats and are covered with a good grade of tan Spanish Art leather. Regular retail value 50 to 60 per cent more.

Both Rocker and Arm Chair have four-inch arms; long back posts and front posts are cut from 2-inch stock. Height over all, 40 inches. Spring seats measure 21 by 19 inches. Springs are fastened in such a manner as to insure comfort and durability, being upholstered over soft, sanitary filling materials. Very broad top panel and back banister are mortised into rails to insure great strength.

The Reception Chair is slightly smaller, but made of the same heavy solid oak stock; spring seat 17½ inches square. Panels match the other chairs.

The Library Table is also of solid oak with a 34 by 24-inch top, framed with a 3-inch rim all around. 2-inch corner posts are bolted to the top. This improved construction assures absolute rigidity at all times. Mortised end panels. Shipped knocked down to save freight and breakage. Easily set up by anyone. Full length magazine shelf (9 inches wide) across bottom. No drawer. No. 1-AW-9723. Four-Piece Library Suite, Fumed English. Price ..... **\$11.25**

# This Splendid Bed Room Suite, with Dresser, Bed and Commode

**Three Pieces  
Now Only  
\$15<sup>95</sup>**

Buy this big bargain bedroom suite and make your dollars do double duty.

If you want to see how much we are saving you on this suite read the description carefully, noting the size of mirrors, swelled fronts, and many other exclusive features,—then go and see what you would have to pay elsewhere.

You can buy one piece, or all three, and if you want you can get the dresser and commode and select a steel or brass bed in place of the wooden bed. This is the biggest bargain we have ever offered in anything near this price.

Every piece is made of thoroughly seasoned Northern hardwood, finished in a beautiful golden quarter-sawn oak grain effect. All pieces are constructed to not only look well, but to withstand the severest test of all—time.

The Dresser has four drawers with swelled fronts, good locks and wood knobs. The double top is swelled and shaped to correspond with the drawer fronts. The end panels are large. The mirror is of beveled French plate and measures 20x24 inches. The mirror standards, mirror frame and legs are shaped and rounded, and finished in the same attractive grain. All drawers are full dovetailed, carefully fitted to slide easily, have steel stops and heavy bottoms. Weight, 135 lbs.

**\$3.47**

**\$4.65**

**\$8.18**

The Bed is of Colonial style to match the other pieces. The head measures 56 inches high. Both head and foot have large panels, which bring out the quartered oak effect to the best advantage. They are surmounted at the tops with heavy rolls. Weight, about 90 lbs., furnished only in the 54-inch width.

The Commode contains three drawers and a swing door toilet compartment. The top drawer is of full width and has a swelled front to match the dresser drawer fronts. Good casters, wood knobs. Double top and shaped standards with towel bar across top. Top is shaped and measures 31 inches long. Weight, about 62 lbs. The suite is shipped from the point of purchase in Michigan.

In the lot are almost all sorts of patterns in art and striped tickings. Tell us if you have any preference. 5-inch "Imperial Roll" edge all around. Supplies a soft, elastic, yet firm and level sleeping surface under the most exacting conditions. Will give you years of comfort. Price, any width. .... **\$6.95**

HARRIS BROTHERS CO., CHICAGO.

# ASTOUNDING PRICES ON BEDROOM PIECES

I-AW-07 \$12.85

This elegant suite can be furnished in four woods—Quarter Sawn Oak, Genuine Mahogany, Bird's Eye Maple or Circassian Walnut.

You can order a dresser, a chiffonier, a bed or a complete suite according to your requirements.

Dresser has a 42 by 21 inch top and a 24 by 30 inch pattern mirror. Base contains four drawers, upper two with shield shaped fronts. Drawers are full dovetailed, fitted to slide easily, are equipped with wood knobs and good locks. Shapely scroll mirror standards, front posts and feet.

Mirror glass is of French beveled plate. Oak, mahogany and bird's eye maple are hand rubbed and polished to a piano brilliancy. The Circassian walnut is beautifully matched and has a rubbed finish. Weight, 160 lbs.

Chiffoniers match the dressers perfectly. Top measures 19 by 32 inches,—beveled French plate mirror 20 by 16 inches. Contains six drawers, upper two with shaped overlapping fronts. The cabinet work, perfect colonial proportions and the finely figured and matched woods correspond correctly with the dresser. Weight, 145 lbs.

Bed is illustrated and described below. All woods except walnut are shipped from Michigan.

HARRIS BROTHERS CO., CHICAGO.

# \$2<sup>29</sup> Buys This Fine Mantle Lamp

**THE GIANT KEROLECTRA**  
BURNS 35 HRS 175 C. P.

## A Most Remarkable Lamp Offer Regular \$5 Value

**19-AW-4028.** The Giant Kerolectra Kerosene Oil Incandescent Center Draft Mantle Lamp is the best lamp value we have ever placed before you. We secured just 924 at a recent receiver's sale. Think of it! A \$5.00 lamp at less than half.

All best features of construction are included in the build of this lamp. An interesting feature is the adjustable lift, making it unnecessary to take the chimney off when lighting. Very powerful, giving an abundance of bright, clear white light; 175 candle power. Being extra large, the oil receptacle will hold 2 qts; from this quantity this splendid lamp will give you a splendid light for 35 hours, continuous burning. With this lamp you can have the best possible light at a lower cost than any other lamp. You can flood the rooms of your home with fine, bright light at a cost of 1-6 of a cent an hour.

The entire body of lamp is made of solid brass, heavily nickel plated and polished to a silver-like brilliancy. Neatly proportioned and perfectly balanced. Equipped with best center draft burner and heavy braided cotton round Rochester wick. Imported triple weave coarse woven kerosene gas mantle, properly suspended. Best quality lead blown electric chimney. High grade pearl white ribbed glazed 10 in. shade in a neat fluted design. Sale price complete, ready to fill and use, shipping weight, 15 lbs. **\$2.29**

**89¢**  
**PER GAL.**

**ABSOLUTE SURE FRESH STOCK**  
**— MICHAELSEN'S —**

## HOUSE PAINT

**A PRODUCT OF 30 YEARS**  
**HONEST PAINT EXPERIENCE**

Mr. Michaelsen takes great pride in this House Paint. The greatest of his wonderful products. The secret of the durability of this Ready Mixed Paint is in the fact that it is almost an oil and a percentage of pigment worked smoothly under the brush as oil itself. Consequently it can be brushed out to a greater covering capacity than any other paint known. Thirty-six different colors, one gallon will cover about 300 square feet with two coat work.

No. 9-AW-611.	50 Gal. Barrel.	Per Gal.	<b>\$0.89</b>

No. 9-AW-601.	¾ Gal. Can.	Each.	<b>.30</b>

### PROTECTO ASPHALT PAINT

**45c** Per Gal.

This is undoubtedly the best paint on the market for preserving metal and felt roofs, wire fences, fence posts, tanks, agricultural implements, eave troughs, spouting, conductor pipe, smoke stacks, boilers, pipe machinery, in fact, all exposed surfaces from the ravages of rust and decay.

Made of the highest grade of asphalt. Can also be used for painting the inside and outside of cisterns to prevent seepage.

**No. 9-AW-919.**  
One gallon cans. Each **\$0.45**

Two gallon cans.	Each.	.89
Five gallon cans.	Each.	<b>1.89</b>
Ten gallon cans.	Each.	<b>3.29</b>

Each		<b>6.49</b>
Barrels, 50 gallons.	Each	<b>11.70</b>

Furnished in black only.

### BARN PAINT

Per **59c** Gal.

**AN IDEAL PROTECTION**

Michaelson Barn, Roof and Fence Mineral Paint is a high class preservative—a lasting preparation put up in six different shades—green, maroon, lead, yellow, red and slate. Will not peel, blister, crack or rub off. A combination of the finest mineral pigments, pure linseed and preservative oils. Especially adapted for painting barns, roofs, out-houses, structural iron work, warehouses, factories, shops, garages, etc. One gallon covers about 300 square feet with two good coats. It is a truly economical covering. No sensible man can afford for the little money it will cost to let his roof, fence or other exposed property rot or decay through the lack of paint.

No. 9-AW-707.	50 gallon barrel.	<b>\$0.59</b>
No. 9-AW-705.	25 gallon ½ barrel.	.62
No. 9-AW-703.	5 gallon kit.	.67
No. 9-AW-701.	1 gallon can.	<b>.76</b>

### FLAT WALL PAINT

**39c** Per Quart

Strictly an oil paint, not kalsomine, or water paint; sanitary and durable. Especially adapted as an undercoat for all enamel work for artistic decoration of interior walls, ceilings and wood-work it has no equal. Will produce a rich satin finish on any kind of interior work. Can be washed when soiled without changing the original color or finish, giving it a great advantage over kalsomine. Colors: Tan, gray, azure blue, light yellow, yellow, deep green, pea green, pink, maroon, red, leather brown, soft canary and cream color.

One gallon will cover 200 sq. ft. Two coats.

No. 9-AW-905.		<b>\$0.39</b>

# MAKE YOUR AUTO LOOK LIKE NEW 75¢

## It's Easy to Do A Good Job with Good Varnish.

Our Varnish Department has taken special care in preparing an automobile varnish that will stand the wear and tear of the weather—a combined gear and finish varnish. The ingredients and formula are equal to the best, and superior to most automobile and coach varnishes used today. Guaranteed to be dust free within from 8 to 10 hours and thoroughly hard within 24 hours.

A special feature is the enameled cans with patent nozzle top, in which it is put up. All corks or plugs done away with. After the can has been opened and only a part of the varnish used it can be closed again and will keep the varnish just as fresh as when first filled. An opportunity to secure a sufficient varnish to cover any ordinary sized car, at a decidedly low price.

# A SEWING MACHINE OFFER THAT WILL NEVER BE REPEATED!!

Be An  
"Early Bird"

**\$15<sup>95</sup>**

Priced from  
**\$10.00 to**  
**\$20.00 Lower**  
Than Ever  
Before.

ONLY 250 LUCKY WOMEN can share in this bargain, as this is all the machines of this supreme quality we were able to procure. Read the description below—see that this is a real high grade, fully guaranteed, machine of great beauty. Compare it with any machine you can buy for \$35.00—then send us your order before it is too late.

## Some of Their Many Special Features

1. Very handsome, massive body. The wood work has six large drawers and a drop panel in the center.
2. The fronts show only select quartered oak, hand polished golden and ornamented with raised carvings.
3. Automatic lift. The cover is of quartered oak, and automatically raises or lowers the head into place when lifted or shut.
4. The stand is graceful, strongly made of the best iron and finished in jet black japan.
5. Ball-bearing stand, and steel (not wood) pitman or driving rod, make it one of the lightest running machines ever constructed.
6. The head is vastly superior to many, having the following up-to-date improvements found only on the most high priced machines:
  - a. Strictly high arm,—assuring ease in handling the bulkiest work. Elegant decorations.
  - b. Side tension and automatic tension release.
  - c. Independent takeup, and pulley release for winding bobbins.
  - d. Automatic bobbin winder.
  - e. Needles are self-setting,—can't go wrong.
  - f. Self-threading shuttle, with large bobbins.
  - g. Four-motion, square and positive feed. Turns out beautiful work, stitching perfectly on all materials,—light, heavy or fancy,—never pulls.
  - h. Richly and heavily nickel-plated on all essential parts.
  - j. All wearing parts are case-hardened, to assure extreme service.

# HERCULES TROUGH

**FOR  
HOGS, SHEEP,  
HORSES and CATTLE**

COMPARE THIS TROUGH WITH OTHERS AT OUR LOW PRICE.

Our Hercules trough is the heaviest and strongest trough on the market. They are especially adapted for breeders and stock raisers. They are made of heavy galvanized steel and are painted black before shipment. The cross bars and legs are of heavy 1-inch bar steel riveted securely to the trough and are spaced close enough to keep animals from crowding. No animals can break nor injure the trough if they stand or walk on it. They will last a lifetime. Can be set any place. No need of building platform to stand on, as it is impossible to tip. Sanitary, as they can be easily cleaned on account of having a round bottom. Will not rust nor corrode. Freezing will not affect them. Ice can be chopped out without injuring the trough.

# HARRIS HARMONOLA

**EQUAL TO ANY \$ 25 TALKING MACHINE  
IN CONSTRUCTION AND TONE**

**\$9.75**

**Y**OUR GOLDEN OPPORTUNITY is here. Your chance for a big money saving on a Talking Machine of superior quality was never greater. The Harris Harmonola is but another example of the unequalled values we are able to place before you in these money saving sales. By actual comparison with other well known makes of world wide reputation, we can faithfully assure you that this machine is equal in tone producing quality, material and construction and is larger in size than most \$25.00 machines. Like the other snaps on the pages of this book, this offering is the result of the unique and original methods employed in our big purchases.

**THE SOUNDING BOARD** with which this machine is equipped is the final step in talking machine perfection. Built like a piano, violin or harp, the effect of this sounding board on the music produced will surprise you in the beautiful mellow, full and satisfying tone.

**THE MECHANISM** is splendid, being properly made, carefully adjusted, strong and enduring. The Reproducer or Stylus is made by the well known German method, acknowledged by experts to be the best in use today. The motor runs even, quiet and smooth, with a carrying capacity of five minutes, sufficient to play two records with one winding or one large size 12-inch record. Disc records of any make can be used on this machine.

**FINEST CABINET** work is evident throughout in the plain, yet neat and nicely finished case. It is solidly built, perfectly fitted and joined. The tone arm, sound box and other metal trimmings are made of brass, brightly polished. Woodwork is hand rubbed and nicely finished. Size of box 12 inches high, 14½ inches wide and 15 inches deep.

**THE CABINET.** The Disc Record Cabinet is made to hold 112 records, 10 or 12-inch size, four in each compartment. Interior sections are all numbered to correspond with index card. This cabinet is made in mahogany finish only, matching the talking machine in design and finish perfectly. Equipped with double needle holder. Size of disc record cabinet, 34½ inches high, 15 inches wide and 15 in. deep.

**16-AW-15000.** Harris Harmonola Talking Machine, wgt., packed, 20 lbs., for this sale, only..... **\$9.75**

Holders **\$1.75**

16-AW-9154. Genuine leather covered magazine camera, equipped with Achromatic Meniscus lens, automatic shutter, two view finders and 12 aluminum plate holders. Weight, packed, 4 lbs. Five dollar value. Special price until stock is exhausted. **\$1.75**

Camera Interior  
View showing man-  
in which plate holder  
are dropped, after tak-  
ing a picture. A new  
plate is always left in  
position for another  
exposure with no time  
lost.

A Wonderful Opportunity to Obtain the Best Magazine Camera Ever Made for One-Third of Its Value. We Guarantee Better Results, for the Beginner, by Using This Camera Than Could Be Obtained with One Costing \$10.00. Size 5 1/4 x 6 3/8 inches. Genuine walrus grain cowhide cover with oxidized trimmings. Special grade Achromatic Meniscus lens and rapid automatic shutter. Two brilliant view finders and two tripod sockets. Takes 12 4x5 pictures without reloading. A register on top shows number of plates exposed. All may be loaded at one time and after each exposure are dropped to bottom of camera. Camera complete with following outfit at less than the cost to manufacture the camera.

16-AW-9155. 4x5 Auto Magazine Camera; 12 aluminum plate holders; 12 4x5 dry plates; 12 sheets developing paper; 1 photographers' manual; 1 large ruby lamp; 1 glass graduate; 1 developing tray; 1 fixing tray; 1 plate drying rack holding 24 plates; 1 printing frame; 1 large roller; 1 adjustable zinc washbox; 2 developing powders; 1 large package of acid hypo and 1 fine 50-page photo album. Weight, packed, about 15 lbs. Camera and complete outfit for developing, printing, and mounting. While they last, only. **\$3.95**

# INGENTO JR. FOLDING ROLL FILM CAMERA \$5.40

## CONSTRUCTION

Designed and Constructed to meet the Demand for an Efficient Daylight Loading Roll Film Camera at a Moderate Price. They are Equally Available for Landscapes, Groups or Home Portraits. The body of the camera is made almost entirely of re-inforced aluminum, black enameled with nickel plated brass trimmings. The ends are fully rounded and the outside covering is a superior triple coated Karatol.

## SPECIAL FEATURES

A new spool holding device eliminates the necessity of spool centers and the cameras can be loaded in half the time of any other. Sure locking back which cannot jar off. Film aligning plate which holds entire length of exposed film in exact focal plane. The best lens and shutter equipment of any camera made at this low price. Brilliant, hooded, reversible view finder and two tripod sockets.

## LENS AND SHUTTER EQUIPMENT

Can be supplied with a specially tested universal focus Achromatic Meniscus or a double Rapid Rectilinear lens. Ingento Jr. 11ex model shutter which provides time, bulb and three instantaneous speeds. 1-25th, 1-50th and 1-100th of a second, for all sizes of the camera but the 2½x3½ and in this size the 1-100th speed is omitted. Push cord shutter release.

# RUBBER SURFACED ROOFING

# 40 Cents

PER  
ROLL

## RUBBER FINISH ON BOTH SIDES

A very fortunate purchase at this time enables us to offer our Ajax Brand of Ready Roofing at lower prices than we have ever been able to offer our customers before. The stock is equal in quality to any material on the market as far as manufacture is concerned. It is "Mill-Ends," each roll containing 108 square feet made up of, from two to four pieces to the roll. This fact, however, does not in any way injure the quality of the material or the manufacture of same. By opening up two or three rolls of roofing at a time one can easily sort lengths that will work in to a good advantage on any building. The stock is furnished in  $\frac{1}{2}$ , 1, 2, and 3 ply. NOTE the following extremely low prices:

Lot No. 13-AW-100. Ajax  $\frac{1}{2}$  ply, used mostly for lining purposes and not especially recommended for roofing.  
Per roll ..... **40c**

Lot No. 13-AW-102. Ajax 2 ply, complete with nails and cement.

PER  
ROLL

### CAN BE USED IN ANY CLIMATE

The material we are offering at 96c per roll is an asphalt slate surfaced roofing that has been more or less damaged in transit from mill to warehouse. It is sold as is, without sorting and without the rolls having been opened before shipment. The sides may be more or less bent or broken and the surface may be more or less imperfect, but we know that the price offered on this material is a bargain, complete with nails and cement. Limited as to quantity. 96c  
Lot No. 13-AW-112. Red or Gray Slate Mill Ends Unsorted..

#### **SORTED SLATE OF BETTER QUALITY**

We have a larger quantity of this material than the above lot that has been more carefully selected and is more perfect in every respect. Each and every roll will contain 108 square feet of material put up in full rolls, made up of, from two to four pieces to the roll. It is well worth the difference in price we are asking. Complete with nails and cement.

Lot No. 13-AW-118. Per roll..... **\$1.16**

#### **RED OR GRAY SLATE COATED SHINGLES**

In connection with our above purchases on Slate Roofing, we have received in stock a quantity of slate surfaced shingles, "Factory Seconds." They are 8x12 $\frac{1}{2}$  inches in size and it requires 424 shingles to cover a square of 100 square feet. These shingles are sorted as "seconds" because of imperfect surfacing only, the backing and body of this material upon which the shingle is made being perfect. They are unsorted, sold as is, at the lowest price we have ever made on this material.

Lot No. 13-AW-109. Slate Shingles, "Seconds," unsorted, Red or Gray, at, per square..... **\$2.50**

#### **MILL ENDS—3 PLY OR HEAVIER**

In going over our stock at this time in our Warehouse, we find that we have a limited quantity of the following grades of material to offer: 3 Ply Roofing, Rubber Surfaced on Both Sides; Sanded One Side and Rubber One Side; Sanded Both Sides; Rock Faced; Brown Pebble and Mica Surfaced. THIS IS ALL 3 PLY OR HEAVIER and the price is less than the regular price on the 1-ply stock. Inasmuch as we have only a limited quantity, we would advise in placing your order with us that you give us both a first and second selection, that we may fill your order promptly and in accordance with your specifications.

Lot No. 13-AW-104. MISCELLANEOUS MILL ENDS.

# Painted ROOFING

## 96¢

PER  
100 SQ. FT.

## RED ON BOTH SIDES

*New, perfect sheets, free from any defects, furnished in  
1 1/4 inch corrugation and painted red on both sides*

These sheets are made of the very best quality of open hearth steel stock and can be used for roofing, siding, and ceiling in corrugated style, or if you so desire we can furnish you the flat sheets for flooring and lining purposes. The price does not include lap. It is necessary for you to add 10 per cent to the total amount of surface you have to cover to allow for the side and end laps of sheets. Select the size and style of sheets best suited to your purpose and order today from the following list of material. These prices are per square of 100 square feet, F. O. B. CARS, CHICAGO:

Lot No. 7-AW-400. Corrugated painted sheets, 22 in. wide by 24 in. long. Per square.....	\$0.96
Lot No. 7-AW-401. Corrugated Red Painted sheets, 22 in. wide by 5 and 6 ft. long. Per square.....	\$1.26
Lot No. 7-AW-402. Painted, 1 1/4 in. corrugated sheets, 22 in. wide, 7 and 8 ft. long. Per square.....	\$1.38
Lot No. 7-AW-403. Brick Siding Sheets, 24 in. wide by 5 ft. long. Per square.....	\$1.42
Lot No. 7-AW-404. Beaded Ceiling Sheets, 22 in. wide by 5, 6, 7 and 8 ft. long. Per square.....	\$1.46

### 24 Gauge 2 1/2 Corrugated Painted Sheets

Many of our customers are familiar with this grade of 24 gauge painted, 2 1/2 in. corrugated stock which we have to offer. These sheets have been used, but not for roofing purposes and are, therefore, free from nail holes, sound and durable and in every way fitted for good and further service. The sheets are all 5 1/2 ft. long by 2 ft. wide and 2 1/2 in. corrugated and heavily coated with a good grade of black Asphalt Paint. This stock we offer you at, per square of 100 square ft., F. O. B., CARS, CHICAGO.....

# Galvanized ROOFING

# \$1.96

PER  
100 SQ. FT.

## EXTRA HEAVY

*Special Bargain Offered for Quick Action*

*Prices Quoted F. O. B. Chicago*

This exceptional value in galvanized 2½-inch Corrugated sheets is offered for immediate acceptance only and we will fill orders only as long as this one lot lasts at the above price. It is a slightly used 26 gauge galvanized sheet, free from nail holes and nicely trimmed. The present stock in our warehouse will run in lengths about 4 or 4½ ft. and in widths from 24 to 28 in. We have decided on all orders from this "Price Wrecker" only, to paint these sheets for you free of charge with good Red Mineral Paint. This will make your roof all uniform as to color. The coat of good paint will also further preserve the galvanizing on the sheets. Remember this is Galvanized Painted Stock.

Lot No. 7-AW-407. Galvanized 26 gauge, 2½ in. Corrugated Sheets, Painted, per square..... **\$1.96**

Here is a heavy corrugated roofing in 5 to 7 foot sheets, manufactured out of 24 gauge, painted with our celebrated Red Mineral Paint.

Lot No. 7-AW-48. Price, per square..... **\$2.05**

### A Special Snap for Siding

If you have occasion to use at this time a used sheet in about 28 gauge stock, all sheets 5½ ft. long by 2 ft. wide, we offer you this stock under this lot number. These sheets have been recorrugated and we therefore cannot guarantee them to be free from defects that might occur on account of recorrugation. They are not especially recommended for roofing except for temporary purposes, but will make good siding.

Lot No. AW-406. Per square..... **98c**

# RAWHIDE— STONE FACED **Gold Medal** ROOFING

**\$1.75** PER ROLL  
**108 SQ. FT.**

## OUR GUARANTEED ROOFING

NOTE the Cut on this Roofing  
from \$2.13 Per Roll Regular  
Price to \$1.75 Per Roll.

For the benefit of our customers who are going to re-roof their residence, their barns or any building upon which they desire to put a first Quality Guaranteed Stock, we have decided in this "PRICE WRECKER" to again offer our own guaranteed roofing at extremely low prices. OUR GOLD MEDAL is our Banner Stock covered by a 20-year quality and service guarantee. It is made on an excellent backing of long fibred wool, saturated in Hot Asphalt and surfaced on both sides with a very fine layer of Ground White Marble. Will resist fire and lightning, requires no paint, and will give long and lasting service. We believe that in the manufacture of this roofing we have attained a near mark of "Perfection" and offer you the material at this special price, complete with nails and cement, for immediate acceptance, only. Lot No. 7-AW-211.

**\$1.75**

## RAWHIDE RUBBER ROOFING AS TOUGH AS ITS NAME

OUR GUARANTEED RAWHIDE ROOFING needs no introduction to our customers nor to the public in general. This roofing is guaranteed to be as tough as its name and each and every roll in every weight is covered by an unqualified service guarantee. Under this guarantee, we offer to replace each and every roll of material that proves defective in quality or manufacture within the time of our guarantee. This material is made on the same excellent backing as Gold Medal, but is surfaced on both sides with a very fine layer of Mica Powder.

Note: Our Special Prices for this catalog only on our RAWHIDE RUBBER ROOFING: Complete with nails and cement.

HARRIS BROTHERS CO., CHICAGO.

# GALVANIZED ROOFING

**EXTRA  
HEAVY**

**\$3.25**  
**PER  
100  
SQ. FEET**

An extremely fortunate purchase of Brand New, Extra Heavy, Galvanized stock enables us at this time to offer you the material at \$1.00 per square less than the regular price. The sheets will run in flat, 1½ or 2½-inch corrugated or "V" Crimped style. **BE SURE AND MENTION THE STYLE YOU EXPECT TO USE ON YOUR BUILDING** and give us the length of your rafters or the size of your roof. By so doing, we will be in a position to sort for you from stock the lengths and widths that will work into the best advantage and in this way will be able to fill your order promptly. The sheets will run in lengths up to and including 10 ft. and in various widths. **ORDER NOW.**

Lot No. 7-AW-502. 24 gauge galvanized. Per square..... **\$3.25**

## EXTRA HEAVY GALVANIZED SHEETS. 22 GAUGE.

We also have in this same lot of material 22 gauge, which is still heavier than the above stock in the same styles and same lengths. Here is your big chance to secure a splendid grade of roofing—the kind that wears for a lifetime. Our price saves you half. This we offer under

Lot No. 7-AW-503. At per square of 100 square feet..... **\$3.50**

Lot No. 7-AW-504. Same as above, but is 20 gauge material, at per square of 100 square feet ..... **\$3.75**

# Tar Paper

**FOR  
LINING OR  
SHEATING  
PURPOSES ONLY**

**30¢ PER  
ROLL**

Along with our enormous purchases made in our Roofing Department we pick up from time to time limited quantities on special lots at prices that enables us to offer the following bargains to our customers at a big saving:

## TAR PAPER

A very good quality of 2-ply Tarred Felt. This is the regulation Tarred Felt Stock but we are able to offer you same at the very low price above mentioned on account of the fact that the rolls have been more or less jammed making same a little difficult to unroll and in all probability the edges will tear a little as it is unrolled. It makes, however, a dandy lining and is of good manufacture and our good stock is limited. Price does not include any nails or cement.

Lot No. 7-AW-113. Tar Paper only at—per roll..... **30c**

## ROOFING FOR REPAIR JOBS

We have on hand in our warehouse about 1,000 rolls of roofing material that comes to us from our factory unsorted, known as "Spliced Rolls." The rolls will run 103 square feet the roll and may run all of the same ply. The majority of this stock, however, is made up of random lengths mixed ply. Of course, this material is not especially desirable for roofing of an entire building, especially where you require a quantity, but you no doubt would have occasion to use such a stock as this on your repair jobs, for lining purposes or siding, and we offer you same while our stock lasts.

Lot No. 7-AW-115. Spliced Rolls. Per roll..... **55c**

## SPECIAL STOCK OF GOOD HEAVY CONTINUOUS LENGTH ROOFING

This stock represents a special purchase that we have made for the benefit of our customers desiring a low priced roofing in continuous lengths. 36 feet long and 36 inches wide. It is a sanded stock, complete with nails and cement for laying.

Lot No. 7-AW-117. Continuous Length Roofing. Per roll..... **97c**

# NEW HEAVY PAINTED CORRUGATED SHEET

A BIG SNAP **\$1<sup>50</sup>** PER SQUARE

Never in the history of our Metal Roofing Sales have we been able to offer this class of material at such low prices. Furnished in 1½ or 2½ corrugated shells, in miscellaneous lengths up to and including 8 feet, various widths—Painted Red.

Lot No. 7-AW-2001.	Twenty Gauge Extra Heavy.....	\$2.25
Lot No. 7-AW-2011.	Twenty-two Gauge.....	2.15
Lot No. 7-AW-2022.	Twenty-four Gauge.....	1.80
Lot No. 7-AW-2033.	Twenty-six Gauge.....	1.70
Lot No. 7-AW-2044.	Twenty-eight Gauge.....	1.50

## METAL CEILINGS

For Halls, Churches, Stores, Lobbies, Entrances, Offices, Restaurants, Hotels, Residences, Lodge Rooms, Etc.

**\$2<sup>50</sup>** Per Square  
100 sq. ft.

Our new Harris Design Metal Plate can be used for wall or ceiling—eliminates all danger of falling plaster; the most sanitary wall or ceiling known; keeps a room dry, plaster holds much of the moisture in a room, this one feature alone makes metal ceiling invaluable for public buildings, etc., especially those heated only now and then.

These plates are 8 ft. by 2 ft., each block a six-inch unit—made with a dust proof beaded lap joint; any one can apply.

The above design retails for \$3.00 per square of 100 sq. ft.

The New Harris Design No. 3050.

Order by Lot No. 7-AW-3050.

## THE HARRIS ORNAMENTAL METAL CORNICE

Very Neat  
and  
Tasty

No  
Block  
Necessary

This small ornamental cornice will make a neat finish against the wall and will add to the appearance of any room where a low ceiling is used. This cornice has a three inch protector and is 4 inches deep. No block necessary; mitred like molding.

Lot No. 7-AW-8046. Price per lineal foot..... **5c**

## METAL LATH

In the course of our marine wrecking operation, we secured several hundred ton of Metal Lath of good gauge, showing slight surface rust only, suitable for use in any building where wood lath is ordinarily used. Can be used in making cement coated houses and is much superior to wood lath. **10c**

No. 7-AW-2416. Per square yard, painted..... **10c**

# \$1.24 BUYS 100 SQ. FT. OF GOOD WALLBOARD

## Splendid Features of "CEIL-TITE" Construction

**C** EIL-TITE Wallboard is composed of three heavy sheets of fibre board, united by two walls of asphalt waterproofing compound, forming a rigid, durable 5-ply sheet,  $\frac{5}{8}$  of an inch thick. The improved, scientific process of manufacture renders it impervious to water, moisture and dampness. With the walls of your room covered with Ceil-Tite you can have the assurance of a dry, healthy room, regardless of outdoor conditions.

**C** EIL-TITE is vermin and germ proof—due to the presence of asphalt, and odorless disinfective. Old fashioned plaster and lath walls harbor vermin, encourage breeding and disease. Ceil-Tite is not only durable and sanitary, but is attributed by many to be the most artistic on the market for finishing new or remodeled dwellings throughout. Where perfect insulation is desired, it is strongly recommended for sheathing purposes, floors and roofs. It possesses greater tensile strength than plaster and is a non-conductor of sound, heat and cold.

**\$1.95 BUYS 100 SQ. FT. OF REGULAR 1<sup>ST</sup> QUALITY WALLBOARD DURING THE PERIOD OF THIS GREAT SALE ONLY.**

### CONSIDER YOUR SAVING IN THESE LOW PRICES

The CEIL-TITE "Seconds" included below are identically the same as "firsts" but may not be of uniform color and the edges show slight roughness. If you intend to decorate over your wallboard, we recommend the purchase of "seconds." Orders for "Seconds" filled subject to stock on hand.

## A HOME IS NOW NO MATTER HOW LIMITED

Countless thousands each day, come to the sensible realization that rent is money poorly spent when you can own a home of your own no matter who you are, what your vocation or the extent of your income may be. In turn, the demand for home built the HARRIS WAY, has steadily grown from a small beginning to the greatest of all home building plans. The tremendous and rapidly increasing demand for our proposition and home building material, from folks just like you, is resulting in a record-breaking year for Harris Homes. The true value of THE HARRIS WAY, perfected building plan, the result of 23 years close and careful study, is now understood everywhere as the only real helpful, money saving, home building method.

## Cut-To-Fit Saves 1/3 to 1/2 Labor

THE HARRIS WAY Cut-to-Fit that builds to stay plan has been carefully developed, step by step, to its present state of perfection, by brains and ability. Our big, new, modern mill drying and storage plant, adjacent to the greatest timber belt, is the final step we have just taken to further increase the big money savings for Harris Home Builders. Our tremendous stocks in our main yards at Chicago, Seattle, Wash., and St. Louis, Mo., from which points Harris Home Building material is shipped direct to you, are but one branch of the thorough completeness of THE HARRIS WAY, but one of the many reasons why we can give you the positive assurance of a saving of from  $\frac{1}{4}$  to  $\frac{1}{2}$ , no matter where or what you intend to build. It is not necessary for you to pay us cash in advance in any instance. The material for your Harris Home will be shipped with the distinct understanding that not one cent is to be paid to us until everything has been unloaded, checked and inspected by you. Then, if you find everything as represented, and only then will we accept your money in payment.

**\$1**  
**BRINGS \$50 PLANS**  
**AND**  
**FULL DETAILS**

One dollar brings a complete set of blue print plans of any Harris home or barn you may select from these pages or our Plan Book of more than 100 modern Harris homes and other buildings during this sale only. These plans are just the same as would cost you from \$25.00 to \$100.00 if you procured the services of any reasonably reputable architect. During this sale we will also inclose complete material specifications, material list and a guaranteed delivered price to your station. If you decide to purchase, you will be credited with this remittance of \$1.00 on your bill—Thus you see this complete service and all details of our wonderful Harris home building plan can be secured during this sale absolutely free. If the plans do not suit and if you are not ready to build, return them and 50c will be refunded. We request a remittance of \$1.00 merely as evidence of good faith on your part and for convenience in mailing. Remember this offer is in effect during the period of this sale only. The time to act is here.

# OWN YOUR HOME!

## FOLLOW THE COURSE TAKEN BY THOUSANDS

**WITHIN YOUR REACH**  
**YOUR INCOME MAY BE**

The day is past when the man of means only, could own his home. The time is here for you to realize your highest ambition. THE HARRIS WAY has nothing but advantages over the old fashioned wasteful and expensive building methods. It's a plan operated on a tremendous scale with improvements and short cuts, that save your time and actual dollars of your money. From the drawing of the plans to the perfected modern construction, second to none, THE HARRIS WAY offers a home building plan tested and tried, by which your home is quickly and easily built, under our **guaranteed no shortage, no extras, no waste—cut to fit system.** Learn how simple and easy it is to build any of the pleasing designs here illustrated or any selection you may make from the more than 100 beautiful modern homes in our free \$10,000 book of plans.

### You Profit By Our 23 Years Study

Through all these years we have easily maintained our lead, never finding it necessary to recognize competition of any kind. Think of it, 23 years of expert planning, designing, close study of economy in material, construction and labor. In dealing with us you get the benefit of all this with the satisfying result of a tremendous saving in actual dollars of your money and a home that you can well be proud of. Thousands of satisfied Harris home owners who have found complete satisfaction and great economy in the Harris way, and daily many others, are continually reaping the benefits of this wonderful building plan. Why not you? If you have any thought of building or any desire to own your own home, you must in justice to your own interests, get the complete details from us without delay. This wonderful offer, backed by our binding guarantee, and every penny of our \$10,000,000 capital, gives you a common sense proposition in which you cannot possibly be mistaken.

### To Home Builders During This Sale

The illustrations on these pages are random selections of Harris Homes and Barns from the more than 100 designs faithfully reproduced in our beautiful free \$10,000 Plan Book. If you have any thought of building or a desire to own your own home, you should have this book before you—it cost us a fortune to produce this book in its present state of completeness and we cannot afford to mail it indiscriminately. But it's free to prospective home builders for the asking. Profusely illustrates and describes in a clear, comprehensive manner the floor plans and all complete details of our unsurpassed Harris Home designs. Explains in a simple way easily understood by any one, every phase of THE HARRIS WAY perfected home building method. Study this valuable information at your leisure. Write for new Harris Home Book No. AW69.

# STANDARD IRON PIPE

We have at all times a large quantity of new and overhauled pipe, for steam, water, gas, oil and all general purposes. Our stock of new pipe includes practically every size known. We list below prices on overhauled pipe and pipe casings in regular staple sizes. Write us fully your requirements.

OVERHAULED IRON PIPE for steam, water, gas, oil, railing and general purpose. Is known as "Reluvenated" overhauled pipe, it represents material that comes to us in competition with various contracts and before shipment is put through our shops, thoroughly overhauled, had ends cut off, re-threaded, and furnished with good couplings. Each length is complete with threads and couplings, unless instructed to the contrary. We paint this pipe with combination asphalt and graphite paint before shipment. Comes in random lengths. Prices named below are based on ordinary requirements. We will quote freight prepaid prices in ordinary quantities on application, or if you are in the market for a carload or more of this material, write for special freight prepaid prices.

OVERHAULED PIPE CASING. We have a large quantity of overhauled lap welded wrought casing as good as new. The threads are newly cut and each length is fitted with a new coupling. Is not as heavy as the standard pipe, but it will stand equally as much and even greater pressure.

This casing can be used for almost any purpose for which standard black pipe is used, and it is especially recommended for water, gas, and oil lines. Owing to the fact that it is lighter than the standard pipe, it has finer threads. Regular casing threads 14 to the inch.

## CAST IRON BLACK DRAINAGE FITTINGS THREADED FOR WROUGHT IRON PIPE

These fittings have an interior shoulder to which the pipe screws up flush, giving an unobstructed passage, preventing pipe from becoming choked up by any solid matter.

The sizes given for fittings refer to the size of the pipe on which fittings are to be used. Carefully measure the inside of the pipe, NOT the coupling, and order by this size.

# 14¢ PER ROD HOG FENCING

Heavy weight, smooth spring wire galvanized Hog Fencing, absolutely the strongest all around Hog Fencing on the market. Do not confuse it with any of the cheap price fencing made of light wire.

This fencing weighs practically 6 pounds to the rod which is easily from 10 to 15 per cent heavier than a similar fence and furthermore, our price that we are offering this fencing is lower than that asked for the very cheapest kind of fence.

Compare our weights with others and you will readily see that you are getting a bargain.

As a matter of fact, if you were to buy the wire in the fence alone, it would cost you more than it would cost for our fence (besides the cost of manufacture), per rod. The stays on this fence are spaced 6 and 12 inches apart, which make a first class, all around Hog and Field Fence. This is a Fence built for continuous and lasting service. Shipped from factory Central Indiana.

This fence is made of 7 line wires, stays spaced 6 and 12 inches apart. Top and bottom wires are No. 9, and intermediate wires and stay wires are all No. 12. Put up in 20, 40 and 60 rod rolls.  
 Lot No. 2-AW-1005. Stays spaced 12 inches apart, approximate weight per 100 rods, 680 pounds. Per rod **4c**  
 Lot No. 2-AW-1009. Stays spaced 6 inches apart, approximate weight per 100 rods, 850 pounds. Per rod **21c**

## EXTRA HEAVY WOVEN WIRE FENCING

At 30 to 50 Per Cent Less Than the Regular Price.

By a fortunate purchase we were able to secure a large quantity of extra heavy woven wire fencing which we are going to offer at from 30 to 50 per cent less than the regular price while it lasts. This list includes every size ordinarily used on the farm or field. The users of fencing readily appreciate the enormous strength that the increased weight gives to the fence. We call your particular attention to the knot in this fencing warranted not to slip, and do not want you to confuse it with any of the cheaper fences on the market. We know that this fencing will go rapidly and same is offered subject to quantity on hand. All of the fencing listed below is made with No. 9 top, bottom and No. 11 intermediate line and stay wires; the knot is also made of No. 11 wire making one of the most practical fences on the market. Shipped from factory Central Indiana.

# BARB WIRE

Here is the greatest bargain ever offered in barb wire. Galvanized and painted barb wire. Some of the galvanized barb wire is not strictly first class owing to the fact it may have an occasional defect in the galvanizing or may be spotted in places, or part of it may be somewhat black, but for every practical purpose it is just as good as the regular galvanized barb wire. The prices offered are for prompt acceptance and subject to change. The barbs are spaced 3 in. and 5 in. apart. Specify which kind you want. It is all two-pointed barb wire. Put up in catch weight reels from 95 to 120 lbs. Shipped from Chicago. Prices are F. O. B. cars, Chicago.

**BARBED  
AT  
BOTTOM**

# VICTOR HOG FENCE

**PUT UP  
10, 20, 40  
ROD ROLLS**

The barbed wire woven into the bottom of this fence is a feature not found in other hog fences and is too important to overlook. This fence is not as heavy as some of our other fences, but it possesses all necessary strength for turning even the most vicious hogs. There are no exposed ends of wire at the knots. This adds to the durability for it is well known fact that rust starts at cut and exposed ends of wire.

Victor Fence is especially adapted for use as a temporary fence. Can be easily moved from place to place and re-stretched as often as necessary.

We guarantee Victor Fence to be exactly as represented. We guarantee it to be made of heavily galvanized wire and to be strong and close enough to turn all kinds of hogs.

## 26-INCH VICTOR HOG FENCE.

Seven wires high. Barbed wire woven into bottom. Stays, 6 inches apart. No. 11 gauge High Carbon Hard Galvanized Steel Coiled Spring Wire at the top. No. 14 gauge intermediate line and stay wires. Spaces between line wires commencing at the bottom, are as follows: 3, 3, 4, 4½, 5½ and 6 inches. Approximate weight of 100 rods 425 pounds.

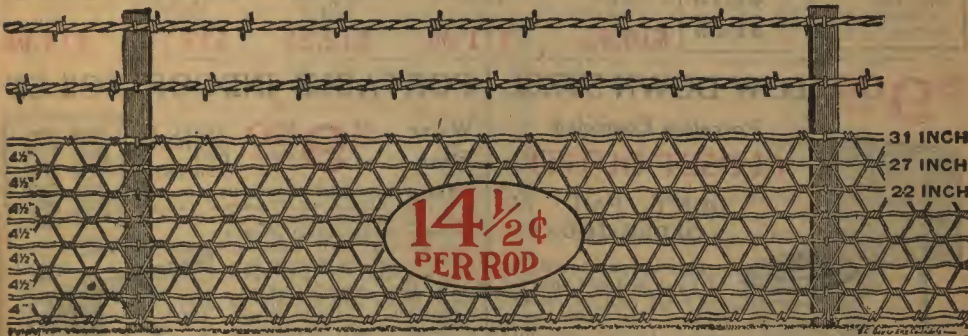

No. 2-AW-122. 26-inch Victor Hog Fence. Price, per rod..... **14 1/2¢**  
NOTICE.—By using two or three strands of barbed wire above Victor Hog Fence an excellent general purpose farm fence can be made at very low cost. Barbed Wire not included at this price.

## 32-INCH VICTOR HOG FENCE.

Eight wires high. Barbed wire woven into bottom. Stays 6 inches apart. No. 11 gauge High Carbon Galvanized Steel Coiled Spring Wire at the top. No. 14 gauge intermediate line and stay wires. Spaces between line wires, commencing at the bottom, are as follows: 3, 3, 4, 4½, 5½, 6 and 6 inches. Approximate weight of 100 rods, 525 pounds.

No. 2-AW-123. 32-inch Victor Hog Fence. Price, per rod..... **19¢**  
NOTICE.—By using two or three strands of barbed wire above Victor Hog Fence an excellent general purpose farm fence can be made at low cost. Barbed Wire not included at this price.

# HARRIS SPECIAL DIAMOND FENCE

This fence will give the very best of satisfaction and service. The diamond shaped meshes hold the running wires in place and prevent slipping and spreading. The mesh wires are intertwisted with line wires under tension, making them so straight that if any intermediate line wires were cut out of the fence between twists the mesh wire portion would still stand erect. No other fence will do this after the line wires have been removed. Every wire in the fence is a brace and support to all other wires.

The running wires are drawn from high carbon hard steel and are provided with tension curves which contract and expand with the changes of temperature and keep the fence straight and tight at all times.

Description.—The top and bottom wires are No. 11, the intermediate line wires No. 14 and the mesh wire No. 16, all wires being heavily and thoroughly galvanized with pure zinc. Meshes, 6 inches. An excellent combination hog and stock fence can be made by stretching two or three strands of barbed wire above this fence. Approximate weight per rod is 4 pounds for the 22-inch height, 4½ pounds for the 27-inch and 5 pounds for the 31-inch. Prices quoted do not include barbed wires shown above fence.

## **\$9<sup>00</sup>** LOW DOWN STEEL PORTABLE INDOOR TOILET

### Porcelain Enameled CLOSET OUTFIT

**DON'T FAIL TO  
ORDER TODAY**

This bargain outfit is, without a doubt, one of the most remarkable offerings we have ever made in a complete closet outfit. The tank is one of our high grade porcelain enameled tanks lined with a mineral composition, making it proof against alkali, lime and other ingredients that ordinarily wear out an inner lining in a tank. It is fitted with latest Improved Flush Valve and Compound Lever Ball Cock. Seat is elegant mahogany, or finished to match the tank, one of very high grade. Bowl is of the wash-down pattern, with 2-in. spud.

No. 5-AW-952. Price..... **\$9.00**

### Water Flush **\$9<sup>50</sup>** ODORLESS SANITARY CONVENIENT

The perfect toilet for country homes or sick room without water pressure. A portable indoor toilet that gives every convenience, perfect acting, practical, sanitary and absolutely odorless—just the same as permanent toilets in large cities where water pressure is necessary. That's what the splendid indoor toilet above will give you. It is no longer necessary or sensible for any family to endure the hardships of going outside during the night or in bad weather. Here is a toilet with the appearance of a nice piece of furniture which can be placed almost anywhere without revealing its purpose. Case is made of heavy solid figured oak, polished and rubbed a rich golden brown. Provided with large rust proof water tank which automatically flushes the toilet after each use, the refuse flowing into a tight chamber which positively prevents odors from escaping. Can be used 20 times.

No. 5-AW-209. Price..... **\$9.50**

# MODERN, UP-TO-DATE PLUMBING MATERIAL

SAVE THE MIDDLEMAN'S PROFIT AND EXPENSE

## Porcelain Enameled Sink

ROLL RIM **\$7<sup>50</sup>** ONE PIECE

We urge your careful consideration of this big bargain value. Seventeen hundred of these roll rim one piece porcelain enameled sinks made of the best grade cast iron. Heavily coated on inside and over rim and back with pure white porcelain enamel baked on to the highest degree of hardness possible, giving an even polished surface of splendid appearance.

When shipped to you, these sinks are fitted complete just as received and as illustrated without all fittings above the floor. Be careful to take this into consideration when you judge this bargain. Trimmings consist of: 2—Nickel plated ½-inch flanged plain faucets. Nickel plated sink strainer with one 1½-inch lead "P" trap with outlet to wall. Easily attached by means of concealed wall hanger, which does away with unsightly and insanitary brackets as used on sinks of old patterns.

And Up For  
Boilers Anyone  
Can Install

In order to protect your interest and see that you get a Heating Plant of sufficient capacity, we at all times figure sufficient radiation to heat your building properly and evenly throughout. This is an important factor, absolutely necessary when estimating the heating requirements of any building. Our expert corps of Engineers figure this on a scientific basis.

### ECONOMY

With our Harris square cast iron Boiler, we have finally come as near to perfection as a boiler can possibly be made. The depth of the firebox depends greatly on the heating capacity of a boiler and from our specifications, you will note that we have sufficient space, which is considered also a great saving in your fuel bills.

### OUR BINDING GUARANTEE

Fully protects you regarding all material contained in your plant, which is also considered an important feature. All boilers and radiators are thoroughly tested before leaving our plant.

Send us a rough sketch of your building and our expert Engineers will figure your plant for you. Write for "Cold Weather Comforts," the best heating catalog published. Wonderful bargains in modern, up-to-date Heating Plants.

WITH THE AID OF OUR EXPERT ENGINEERING SERVICE

PURE FRESH WARM AIR

Let Us Prove  
Our Claims  
To You

**\$33<sup>50</sup>**

And Up For  
Better Hot Air  
Plants, Etc.

The question of automatically ventilating the entire house to the benefit of the occupants is one that deserves considerable thought. This feature is contained in our HARRIS HEATER whereby an entire change of air occurs within the room once an hour and in some instances, more than once. The quality, workmanship, finish and material in the Harris Heater is incomparable.

## HEALTH

Doctors and Scientific Experts all agree that a constant supply of fresh air is absolutely necessary. With our HARRIS SYSTEM, this demand is met. WE ARE THE ORIGINATORS OF THE HARRIS HEALTH-GIVING HEAT PRODUCERS FRESH WARM AIR, built to keep health in your family.

## WE AIM TO PLEASE

In order to insure satisfaction to the Householder we advise that the next size larger WARM AIR HEATER than is absolutely necessary, be installed. The Harris Heaters are adapted for both hard or soft coal. Wood and coke may also be used as fuel.

Send us your plans today and receive by return mail a price on a complete HARRIS WARM AIR PRODUCING SYSTEM. We furnish the HARRIS WARM AIR HEATERS complete for houses, churches, schools and churches at MONEY-SAVING PRICES.

## HARRIS GRIST MILL

**\$1.50**

No. 8-AW 3037. Strong, durable and well built. Will grind all kinds of grain, either coarse or fine. They will make fine meal, flour or meal for use, crack kernels of corn, small chickens, grind home made split peas, dry bones and shells for poultry.

Burrs are easily adjusted grind fine or coarse without use of wrench. Burrs are made of white steel alloy ground to true surface.

No. Wt.	Cap. per Hr.	Price
1-13 lb.	1/2 to 1 bu.	\$1.50
2-36 lb.	1 to 1 1/2 bu.	2.00
3-60 lb.	1 1/2 to 2 1/2 bu.	4.00

Same as No. 3, with pump for power, capacity 3 to 5 at 100-400 R. P. M...\$5.00

## THREE SPEEDS

## ELECTRIC FANS

Complete assortment of the very finest grade of Brand New Fans for the home, the office, hotels, theaters, restaurants, hospitals, etc.

Every fan guaranteed to give perfect satisfaction or money refunded. The arguments for the use of fans in summer are the same as those for a heating system in winter. In the home they are demanded for comfort and health, in the industrial establishment for comfort and efficiency, in the store or public place for comfort and increased patronage.

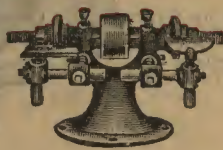

While electric fans are intended primarily for cooling, they act also to drive away flies and insects, a sanitary feature to the public or private dining room.

## HARRIS CROWN BENCH GRINDERS

Here are three standard patterns of Emery Grinders, which combine maximum capacity, service and efficiency with minimum cost, space and weight. Finished with bodies in black japan, and fitted with nickel plated oil cups. Pulleys, flanges, rests and nuts are brightly polished.

No. 1 Grinder will carry two wheels 1 in. thick and up to 8 in. in diam. For general purposes we recommend a 6 in. diam. by 1 in. face. Size of base, 5x3.  
No. 2 Grinder will carry two wheels 1 1/2 in. thick and up to a maximum of 10 in. diam. For general purpose we would recommend use of wheels 8x1 1/4 in. Size of base, 5 1/4x6 1/4.  
No. 3 Grinder will carry two wheels 2 1/2 in. thick and up to 12 in. diam. For general purposes we would recommend 10x2 in. wheel. Size of base, 9 1/4x6.

# GREAT SUMMER SALE

## Gas Engines

### Cream Separators, Feed Mills, Hay Balers

### Electric Light Plants, Corn Shellers, Corn Huskers, Ensilage Cutters

HERE, and now, during the Summer of 1915, is the Greatest Sale of Gas Engines, Cream Separators, etc., ever before held. It isn't just a mere sale of merchandise at a cut price, but it represents an absolute slaughter of prices on high grade products, such as is bound to be of interest to every up-to-date farmer and user. In the following 8 pages, we show a line of merchandise that is sold strictly on honor. It is guaranteed to represent the highest quality of American Products; it was purchased by us under an agreement so confidential, that it is impossible for us to state the name of the manufacturers, but 22 years of honest dealings with you, have taught you to recognize that our statements represent unvarnished facts. Each of the articles is sold you under this guarantee: That it is superior in quality to any similar merchandise ever offered by any mail-order house in the world; that it is strictly first-class product, better than the average, that you can continuously obtain any repair parts or service connected therewith.

We warn you that there is a limit to the quantity of this stock—we cannot continuously supply you with these articles—we have these goods today, and tomorrow they will be sold. Act quickly. Don't blame yourself if you fail to recognize bargains like this when they are offered for your selection.

**SHIPPING POINTS.** The articles in these 8 pages are shipped from various points, scattered from coast to coast. The prices are based on delivery f. o. b. cars Chicago, and the prices at these various shipping points will be based on the railroad rate of freight from Chicago to our warehouses. In other words, if you live near Seattle, Wash., we will add to the Chicago price, the actual freight based on a solid carload of these articles going from Chicago to Seattle, thereby effecting an enormous saving to you. If you prefer to know the exact freight charges before placing the order, merely drop us a line and the information will be forthcoming at once.

We urge you with all the language at our command to obey the summons that is made you and purchase from this section of high grade merchandise just what you are in need of today. Or, even though you have no immediate need for these articles, a small deposit placed with us now will secure their delivery at some later date. Never in the history of this great company did we have an opportunity to give you a better return for your money than is evidenced in this line of merchandise. Act today.

## STANDARD ENSILAGE CUTTER

Here is the best all-around Silage Cutter produced. The points of advantage are as follows:

It has a heavy angle-iron cross frame on legs, strong heavy boxes, one being adjustable to place knives near shear bar.

Has 1 1/4-in. main shaft turning in a thick bed of babbit.

The disc is perfectly balanced between the boxes.

The outer brace and box are removable to put on the drive belt.

Has a solid cast, ribbed, reinforced disc with no objectionable openings in it.

The disc is keyed and double set-screwed to the shaft.

It has simplicity of knife adjustment.

There is no chance for bolt shearing.

The knives can be easily removed, ground and replaced.

The heavy fan case strengthens the machine.

The change of gears and the removal of two knives makes variable lengths of cuts.

The corn is carried forward to the rolls.

The upper roll tilts with the shape of the material.

The spiked roll pulls, and is cleaned by teeth near the shearing bar.

The shear bar gives four cutting edges.

Is equipped with safety yoke which will stop and reverse the machine before the feeder gets in.

The machine is simple and strong throughout.

Has a good steel truck and is compact for transportation.

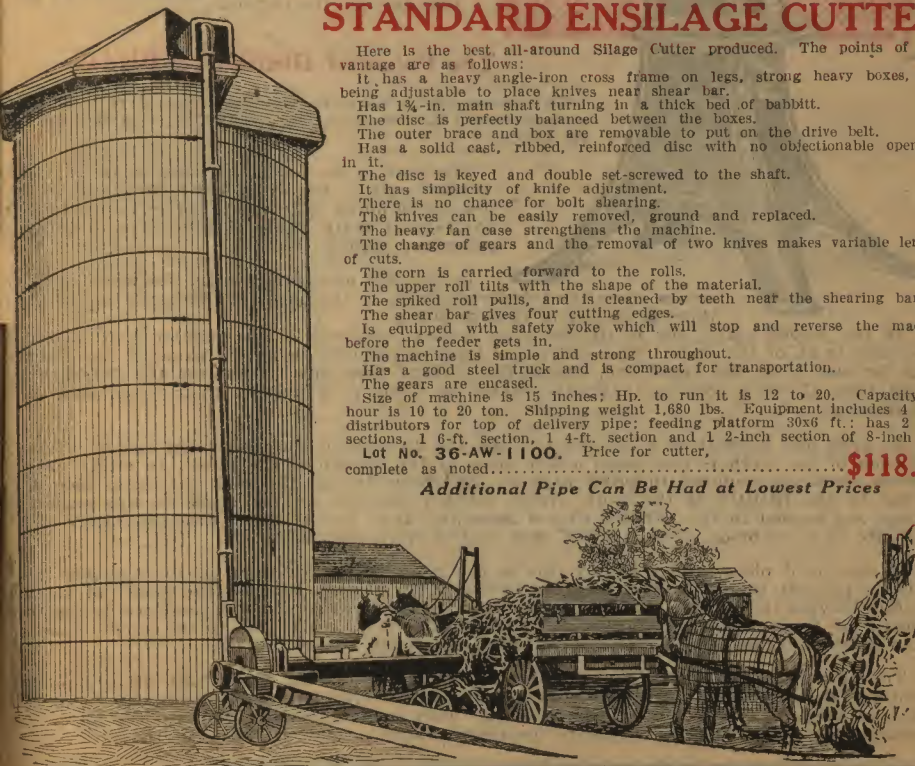

The gears are enclosed.

Size of machine is 15 inches; Hp. to run it is 12 to 20. Capacity per hour is 10 to 20 ton. Shipping weight 1,680 lbs. Equipment includes 4 knife distributors for top of delivery pipe; feeding platform 30x6 ft.; has 2 8-ft. sections, 1 6-ft. section, 1 4-ft. section and 1 2-inch section of 8-inch pipe.

Lot No. 36-AW-1100. Price for cutter, complete as noted.....

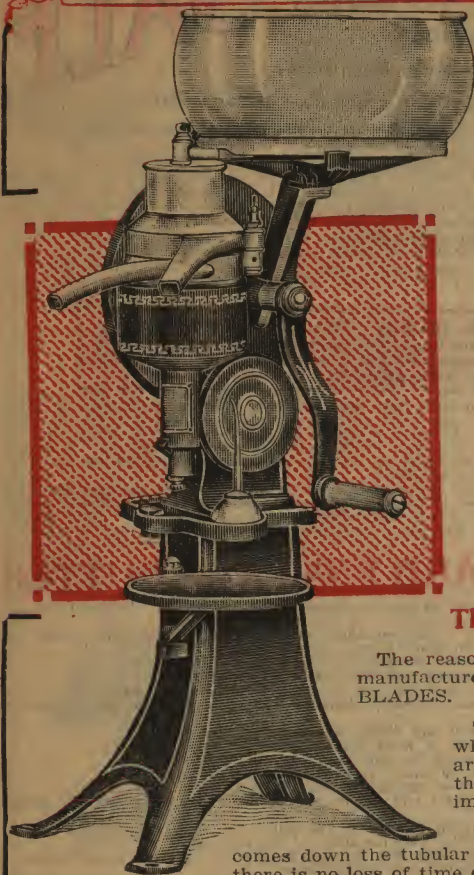

**\$118.00**

**Additional Pipe Can Be Had at Lowest Prices**

# The "ROBBY" SCIENTIFIC CREAM

## WHY THIS IS THE BEST CREAM SEPARATOR MANUFACTURED

**First,** here is a durable machine. It will last for twenty years or more. Runs quietly and smoothly. Will do its work as well at the end of twenty years as it did when it was new.

**Second,** it is strongly but simply built—no complicated.

**Third,** no delicate parts to wear out. It has interchangeable parts. Any part can be easily replaced.

**Fourth,** the cream can be regulated to any thickness desired.

**Fifth,** no loss of butter fat.

**Sixth,** it skims closely, giving thick or thin cream as desired.

**Seventh,** it is a convenient machine, with supply can at the proper height so that it can be easily reached and with a handle at just the actual position for turning.

## The Patented Distributing Blades

The reason why we have the best Disc Cream Separator manufactured is because of the PATENTED DISTRIBUTING BLADES.

The slots in the ROBBY tubular shaft extend the whole length of the discs and alongside these slots are the patented distributing blades that extend into the tubular shaft. These blades serve to do several important things.

In the first place, they bring the whole milk that comes down the tubular shaft up to the speed of the bowl, immediately there is no loss of time or power.

In the second place, due to its revolving motion, the milk in the tubular shaft is fed out equally to all of the discs. The centrifugal force of the milk being the same at the lower end of the slot as at the upper end, causes the milk to pass equally between the different discs and thus all discs receive an equal amount of whole milk and do their equal part of the skimming.

In some disc separators a few discs at the top do most of the separation and in others the burden of the work is cast upon a few discs at the bottom of the bowl. In either case the other discs are required in order to save the cream left in the milk that goes past them. Only in the ROBBY is the work evenly divided between all the discs—in this way few discs are needed in the ROBBY Cream Separator than in any other disc separator. Others require 39 to 45 discs. The ROBBY does perfect work with 30 to 33.

In the third place, and probably this is the most important thing of all, the distributing blades prevent the milk from foaming. The milk, having attained the speed of the bowl before leaving the tubular shaft, is passed through the bowl so smoothly and evenly that practically no foam or suds is formed and all the skim milk can be fed to the stock—none of it has to be discarded for fear of causing sickness among young animals.

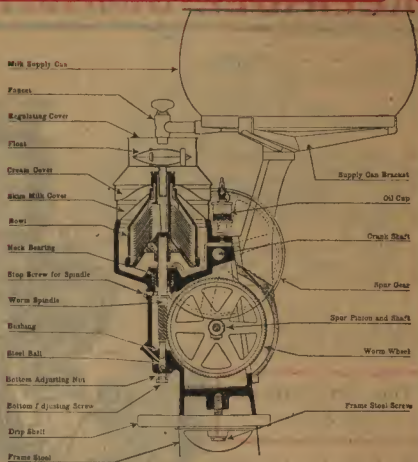

The bowl of the ROBBY Cream Separator revolves at slower speed than other separators and still does its work perfectly, because our patented distributing blades distribute the work of separation so evenly among all the discs. This is an important point to the buyer, as it insures long life and more durability for the machine.

# SEPARATOR INSURES SATISFACTION

While the stock of Cream Separators that we have on hand would be a big stock for the ordinary concern—yet, judging by our past experience in sales of this kind, when the prices are as low as those shown on this page we are bound to soon exhaust this stock.

## 500 Lbs. Smallest Size

It is important to note that in these separators we are offering nothing smaller than a capacity of 500 lbs. A great many houses make leaders of light separators that will not give the service, because of lack of capacity. Furthermore, the rating on the ROBBY machine is guaranteed under-estimated very much, unlike most machines on the market which are strongly over-rated. We guarantee absolutely that the machines will easily handle the capacities noted.

## STANDARD POWER FEED MILL

### AN ALL STEEL MILL

Just 900 mills in this lot. Quick action is necessary if you desire to take advantage of this bargain offer. The feed mills offered herewith are of a quality superior to the ordinary kind, and for sturdiness, ease of operation and economy, have no equal. The machine is the result of long study to perfect a mill that would meet with the full approval of farmers who want the best.

It has few parts and they are simply but strongly put together. The specially designed burrs a feature for grinding corn and small grains sufficiently fine to obtain the best results, not only increase the productive value of milch cows, but also the greatest economy in fattening stock for the market.

A few years ago when ground feed commenced to be used generally among farmers, fine grinding seemed to be desirable. Later scientific experience demonstrated the fact that medium ground grains would produce more productive results than the more finely ground. Therefore, in designing this mill the manufacturer had this particular feature in mind, and while it is possible to furnish burrs to grind the grain very fine, the general use to which this mill is adapted is for general grinding such as above described.

The burrs furnished are thirty per cent steel alloy. They have the hardness of white iron and the strength of steel. Each grinding plate is securely held to its iron discs by four square-head plow bolts, which makes them easily removed and at the same time are held firmly in place so as to form a perfect grinding surface. The mills are regularly furnished with medium burrs. An extra set of coarse burrs is sent with each mill. Fine burrs may be had at a slight additional cost. These burrs are sharpened until each tooth is perfectly true and the bearing rib on the back of the burr is then ground parallel.

Another special feature in the construction of these mills is that they are fitted with a lever, by means of which you can immediately separate the grinding plates quickly at any time when any foreign substance comes in contact with them, thus preventing breakage of the burrs. This mill is manufactured in four sizes: 6, 8, 10 and 12-inch, and the capacity per hour is from 7 to 35 bushels of corn or mixed grains. The capacity, of course, depends a great deal upon the power supplied. The 8-inch mill can be operated with a 3 H. P. engine, but to get capacity, you will have to have from 6 to 8 H. P.; the 10-inch mill from 8 to 12 H. P. and the 12-inch mill from 12 to 15 H. P.

Absolute satisfaction is assured. It is the best grinder you can purchase.

Prices as follows:

Lot No.	Size	Weight	Price, Each
36-AW-1104	6	200 lbs.	\$ 9.95
36-AW-1105	8	325 lbs.	13.85

36-AW-1107	12	530 lbs.	24.75

SACKING ELEVATORS AND WAGON BOX ELEVATORS AT LOW PRICES.

# RELIABLE STANDARD GASOLINE ENGINE

Vertical Valves—no weight on valve stems, less wear

Removable Inlet Valve—easily cleaned.

Inlet Valve Lock Rod—economical on gasoline.

Cylinder and Head one piece—no gaskets to blow out.

Removable Water-Head—giving easy access to water-jacket for cleaning.

Breaking Plate—making cylinder frost proof.

**The best Engine on earth**

Water Proof and Oil Proof Cable—prevents short circuit.

Patented Seager Mixer—no wearing parts, easy to start in hot or cold weather.

Removable Hopper—easily changed from hopper jacket to tank cooling system.

Oil fed at top so piston grooves carry it to all parts of cylinder.

Cylinder and water tank separate from engine bed.

Heavy drop-forged I-beam style connecting rod.

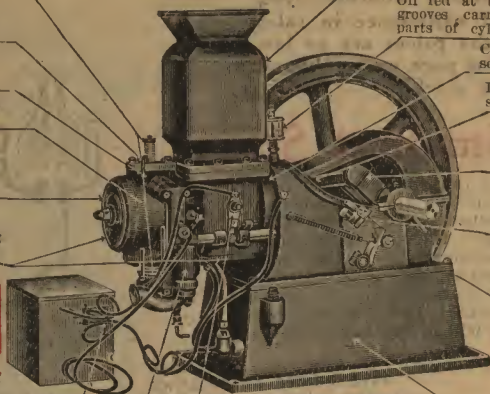

Drop-Forged Crank Shaft—no welds, strongest, toughest, best.

Governor Latch—simple, safe, adjustable when running, cannot run away.

Base separate from engine—makes cast-iron tank for gasoline possible.

**Parts can be continuously obtained**

Gasoline tank in sub-base—safe, compact.

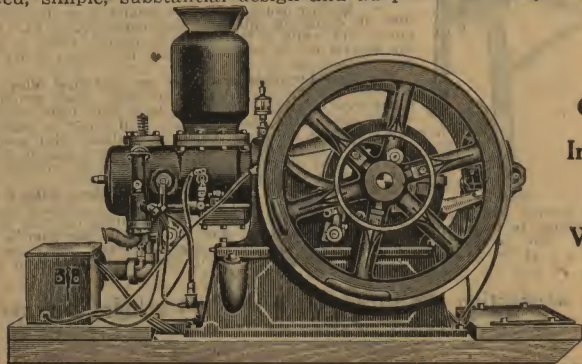

Igniter—compact, adjustable, no wearing parts.

**I**n the history of our Company we never before have been in position to make an offer on gasoline engines such as this one. We positively claim that here and now is the best gasoline engine ever produced. Never has it been offered to the consuming public direct and never before have you had an opportunity to buy an engine of its reliability at within 40 per cent of the cost to manufacture. We make no extravagant statements. We deal strictly with facts and that is the case with these engines. Confidential reasons do not permit us to give you the name of the manufacturer, but we urge you with all of the language we are capable of presenting to place your order at once. Do not wait until we have disposed of them as no matter how large our present stock is the price named will exhaust it. If you have no immediate use for an engine, take your money out of the bank and invest it in the purchase of one of these engines. The guarantee published in the front of this catalog is your absolute protection.

In a general way we can state that from every standpoint, reliability, construction, ease of operation, fuel economy, ignition, compression and every other point that enters into the quality of an engine here is the acme, the top notch of perfection.

The engine we are offering has been built for over 30 years. There is nothing uncertain about it. Every feature has been thoroughly tried out under every conceivable condition. Again, this engine has been designed especially for farm use, as this service requires an engine of moderate speed, simple, substantial design and adaptable to many different classes of work.

**Parts  
For These  
Engines  
Can Easily  
Be Obtained**

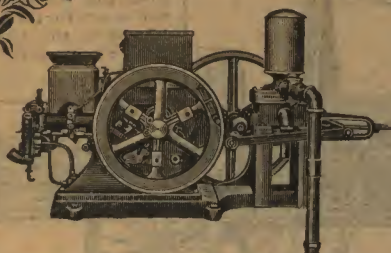

**Complete  
Instructions  
Are Sent  
With Each  
Engine**

We have these engines in stationary, portable, direct connected to pumps, hoisting outfits, sawing outfits, etc., ranging in size from 1½ to 65 horse power.

This stock of engines is located at various warehouses scattered from coast to coast and we can ship from nearest point to you. Prices are based, however, on delivery f. o. b. cars, Chicago, with carload rate of freight to nearest warehouse added, thus making you a considerable saving in freight and insuring you immediate delivery.

# THE BEST GASOLINE ENGINE BUILT

Type A Engine Direct Connected to Douglas Pump.

Type A Portable Engine Mounted on Steel Truck.

## STATIONARY GASOLINE ENGINES.

Lot Number.	Horse Power.	Weight.	Price, Each.
36-AW-1120	1½	372 lbs.	\$ 29.50

36-AW-1124	8	1770 lbs.	109.50
36-AW-1125	12 with skids	2560 lbs.	187.50
36-AW-1126	15 with skids	2600 lbs.	205.00
36-AW-1127	18 with skids	4120 lbs.	299.50

25, 35 and 50 H. P., prices furnished on application.

On 1½ H. P. add extra for skids 75c.

On 3 and 4½ H. P. add extra for skids \$1.50.

On 6 and 8 H. P. add extra for skids \$2.50.

### Gasoline Engines Direct Connected to Douglas Pumps.

Lot Number.	Horse Power.	Weight lbs.	Price, Each.
36-AW-1108	1½	600	\$49.85
36-AW-1109	3	2500	92.50

The Douglas pump used in this outfit is the highest grade pump manufactured. It is built on one base with the engine and is self contained. Pump can be disconnected and engine used for general purposes.

### Gasoline Engines Mounted with Steel Trucks.

Lot Number.	Horse Power.	Weight lbs.	Price, Each.
36-AW-1110	4½	2000	\$ 98.00
36-AW-1111	6	2300	114.50
36-AW-1112	8	2500	135.50
36-AW-1113	12	3100	217.50
36-AW-1114	15	3200	242.50

## GASOLINE ENGINES MOUNTED WITH WOOD TRUCKS.

Lot Number.	Horse Power.	Weight.	Price, Each.
36-AW-1115	1½	425 lbs.	\$ 32.85
36-AW-1116	3	800 lbs.	53.50
36-AW-1117	4½	1100 lbs.	76.50
36-AW-1118	6	1400 lbs.	104.50
36-AW-1119	8	1900 lbs.	129.50

### RATING OF THESE ENGINES.

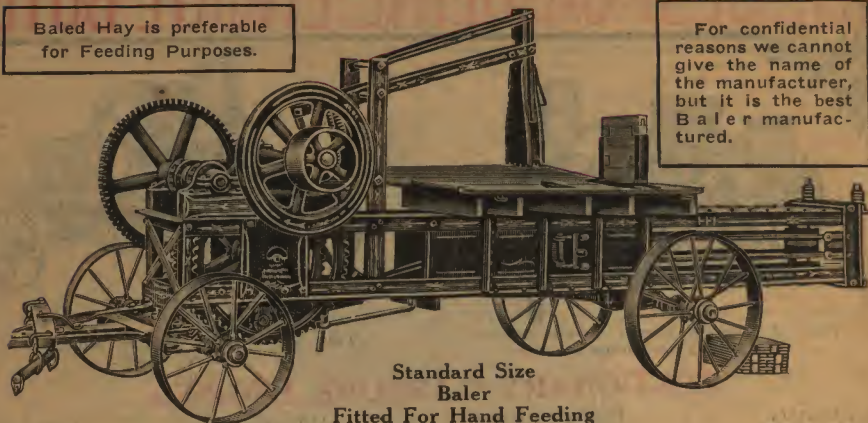

It is a custom of most dealers in gasoline engines to over-rate their capacity. As a matter of fact, the engines offered in this stock are absolutely under-rated and any one of them will develop at least 25 per cent over its rated capacity. The ratings given above are exact ratings of the engine not nominal which are customary of other manufacturers. This type of engine is so well known that any reference to the many selling points of superiority as efficiency, durability, fine running, quality and finish is unnecessary on our part. In fact, you are buying one of the best engines on the market at a fraction of the original price.

# STANDARD HAY BALER

Baled Hay is preferable  
for Feeding Purposes.

For confidential  
reasons we cannot  
give the name of  
the manufacturer,  
but it is the best  
Baler manufac-  
tured.

Standard Size  
Baler  
Fitted For Hand Feeding

**T**HE value of the farming industry has increased in the United States during the past year, over two billion dollars. A large percentage of this has been brought about by Scientific Farming, or in other words a saving effected on the farm by using up-to-date scientific methods for growing and saving the crop. There is no crop where a larger percentage of profit can be saved than by hay crop. It has been demonstrated that the saving effected by baling hay and properly protecting it from the weather, increases the value at least 20 per cent. It not only increases the value of the baled product, but also prevents a great deal of waste where hay is handled in the loose form.

As a consequence of this great saving in baling hay, the attention of all manufacturers has been directed towards perfecting a hay baler that is not only effective in its operation, but one that can be operated economically, and this can only be done by using well constructed mechanical principals in perfecting the design of the baler, and also in the improved quality of the material of which it is constructed. All of these important facts we have embodied in the baler which we are offering you, and which is represented by the cut herewith presented.

## Special Features In Construction

The frame of this baler is built for strength, made of heavy steel angle iron extending from end to end, reinforced by solid plates, with twin gears in front; also with heavy steel standards at the sides. The top and bottom is strengthened by steel angles and long steel plates. End of frame is tied by heavy steel bars. The plunger head is of the box pattern, and has heavy cast iron face. Pitman is made of heavy, double truss steel; four relief springs take the strain from the foot feed truss and prevent breakage from heavy feeding. The feed openings are large, hence give capacity.

The automatic block dropper is also of modern type; in fact, all the features represented by an up-to-date baling press are embodied in what we are offering to you.

These balers are manufactured in Junior and Standard sizes. The Junior sizes are furnished 14x18 and 16x18. These are a very desirable individual press. The standard sizes, 16x18 and 17x22, are for heavy custom work. The Standard Balers should be operated with from 8 to 12 H. P., depending upon the amount of work required. The Junior Press can be operated with  $4\frac{1}{2}$  to 6 H. P. engine. Special equipment can be furnished when so ordered, to mount the engine on baler, making a complete outfit, or can be used with any portable or traction power.

Bale Ties at Remarkably Low Prices. See Page 34.

## JUNIOR BALER PRICES

36-AW-1129.	With 14x18 bale chamber, weight 3,570 lbs.	Price, each.....	\$224.50

	Price each .....		\$298.50

# BEST CORN SHELLERS MADE

We have a complete stock of these high grade Corn Shellers, recognized as the peer of any product.

They will clean faster, with less power and help than any other. Cost you just about half to shell your corn than if it were done by a contract sheller. They will shell any kind of corn you wish, and will make a first-class, clean job. Do not require regulation or adjustment for different sizes of ears—you can feed any and all sizes at the same time, and each ear will be shelled clean.

They consist of a heavy cast iron cylinder, with lugs. This cylinder is mounted on heavy steel shafting, running in babbitted bearings. The cylinder is enclosed in a steel jacket, which has perforated bottom, allowing the corn when shelled to drop to a screen, and through that, through a spout at the bottom of the machine. The shelled corn is then elevated and deposited in bags, boxes or any place you wish.

Lot 36-AW-1133. No. 2 Sheller. Height, 3 ft. 9 in.; length, 5 ft. 4 in.; width, 3 ft.; weight, 254 lbs.; requires from 3 to 6 H.P. Capacity, 75 to 100 bu. per hour. Machine includes 9½ ft. elevator, 8 ft. cob-stacker, 8x4 in. lag pulley and fan.

**\$16.50**

Lot 36-AW-1134. No. 3 Single cylinder with husk wing. This machine is designed for farmers who have a large amount of shelling to do. Height, 4 ft. 4 in.; length with feeder, 9 ft. 6 in.; width, 3 ft.; weight, 300 lbs.; requires 5 to 8 H.P. Capacity, 75 to 150 bu. per hour. Consists of 5 ft. feeder, 12 ft. stacker, 9 ft. elevator, 8x6 in. lag pulley. Price complete.....

**\$36.00**

Lot 36-AW-1135. 4-B is similar in appearance to the No. 3, except that it has a double cylinder instead of single cylinder, and is a husk sheller, complete with husk fan, cleaning fan, 9 ft. elevator, with swinging spout, 14 ft. winging cob stacker, 8 ft. feeder on all steel truck, and is a big complete sheller in every way. Wt., 1,500 lbs. Price

**\$110.00**

Lot 36-AW-1136. The No. 5 Sheller is similar in appearance to the No. 3. This machine is suitable for contract work. Height, 4 ft. 4 in.; length with feeder, 9 ft. 6 in.; width, 3 ft.; weight with fan, 400 lbs.; power required, 5 to 8 H.P. Capacity, 75 to 100 bu. per hour. Consists of 5 ft. feeder, 12 ft. stacker, 9 ft. elevator and 8x6 pulley. Price complete.....

**\$94.50**

Lot 36-AW-1137. No. 6—completely equipped corn sheller. Has 2 cylinders revolving in opposite directions; will shell more corn and use less power than any other sheller manufactured; is equipped with every attachment that is found in the most expensive shellers. The high cob stacker swings, so you can make a big pile without shelling a lot of corn; wagon elevator is 9x9 ft. high, and cob stacker is 14 ft. long, with 10 ft. feeder, and also has steel trucks. Has a capacity of from 250 to 500 bu. per hour. Requires 10 to 15 H.P.; length, 15 ft.; width, 5 ft. 9 in.; height, 9 ft. 7 in.; weight, 2,200 lbs.

Price complete ..... **\$215.00**

## STANDARD CORN HUSKERS

THE BEST CORN HUSKER MANUFACTURED. For confidential reasons we cannot tell you the maker, but we can assure you that this is the most popular, all-around husker manufactured.

This small husker is for individual work, but is a big capacity husker for its size. From start to finish every feature of this machine insures capacity and strength. The simplicity of the machine reduces friction and gives power for real husking. The slant feed table makes feeding easy and natural. The widest throat of any machine of its kind gives ample opportunity for fast feeding. The extra long, perfect snapping and husking rolls take care of all the corn that can be fed. A large screen takes care of the shelled corn and cut material. A simple but powerful blower with the adjustable pipes will receive and drive with ease the cut material into the remotest end of the highest mow. A liberal size corn carrier handles all the corn that can be fed.

HANDLES ANY KIND OF CORN. Husks even the smallest nibbings; in fact, popcorn can be husked as well as any large corn. This is made possible by the specially designed springs and retainers that keep the rolls in proper position and under proper pressure for clean husking. The husking rolls are extra long and large, and run at high speed. It is evident that cleaner husking with less shelling is certain. It is a clean husker, because it has thirty-four husking pegs. Under ordinary conditions this machine will husk from fifteen to twenty bushels of corn per hour. The long rolls husk clean and keep the corn moving down to the good sized elevator, and all the corn is handled easily. The little corn that is shelled is thoroughly shaken out of the fodder on the big screen.

ELEVATES FODDER TO THE HIGHEST MOW. The fodder passes over the screen and falls into the fan case. The fan is simple, consisting of one piece of metal that would bend double before breaking. It is carried between heavy double bearings on a well braced frame and driven by the only belt on the machine, excepting the drive belt. The blast is sufficient to drive damp or dry fodder around elbows to the farthest end of the highest mow.

Lot No. 36-AW-1138. Shipping weight, 1400 lbs. Price..... **\$109.50**

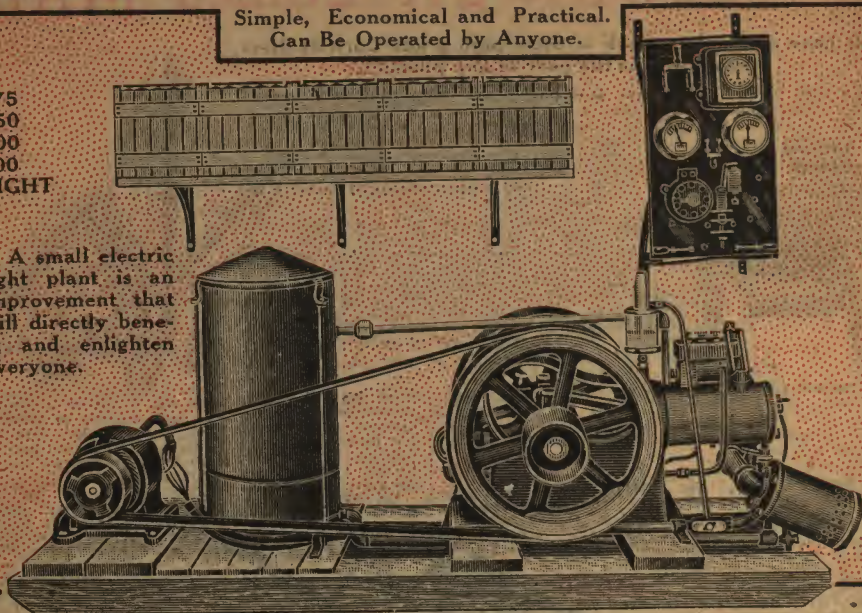

# RELIABLE STANDARD ELECTRIC LIGHT OUTFIT

Simple, Economical and Practical.  
Can Be Operated by Anyone.

75  
150  
300  
500  
LIGHT

A small electric light plant is an improvement that will directly benefit and enlighten everyone.

This stock includes 100 storage battery electric light outfits with a capacity of 75 8-candle power lights, and 35 16-candle power lights rated at 30 volts with 50 amperes. Each equipment consists of a standard high grade electric light engine with all equipment and built-in magneto, 1 shunt wound generator with self oiling bearings fitted with carbon brushes, 1 switch board containing rheostat, volt meter, ampere meter, ampere hour meter, circuit switch, automatic switch, battery switch, dynamo switch and starting switch. Batteries are of the standard Willard type, enclosed pattern, incased in rubber containers, and are complete with the necessary connectors, and also the lead wires from the generator to the switch board and switch board to the batteries and a suitable driving belt, in fact, a complete plant in every detail ready to run.

The Reliable Standard Electric Light Plants are for use in farm and suburban homes, hotels, summer resorts, public buildings, factories, stores, moving picture shows, and in fact any place where independent, reliable electric service is desirable. Besides providing current for lighting they can be used to furnish current for small motors which will operate many machines in the home, about the farm or in the shop.

The engine in connection with the electric light plant is the most vital part, and the engine we are furnishing is especially built for this purpose, close regulation and high efficiency is absolutely necessary to obtain the best results. The equipment is so arranged that it can be run in parallel, that is, the current can be taken from the storage batteries, and if more current is desired it can be run from generator as well, thereby doubling the capacity of the plant.

The batteries are especially adapted for requirements of moving picture shows where 60 volt is required as it is only necessary to increase the resistance in the rheostat to obtain this voltage.

Engine is mounted at one end on a substantial wood frame, on the other end the generator is mounted. Water tank is set between them. Batteries can be placed on any convenient shelf where they will be out of the way.

Lot No. 36-AW-1139. Price..... **\$239.50**

*We can also furnish other outfits in sizes ranging from 150 to 500 light and various voltages desired*

**BOUGHT AT A \$4,000,000 MILL AUCTION  
 AT THE LOWEST PRICES IN RUG HISTORY**

If you want a high grade Seamless Wilton Velvet Rug that will give you years of service and an absolute guarantee of 50 per cent saving, **HERE IS YOUR CHANCE.**  
 This high quality rug is woven throughout of the best quality pure wool with a thick, firm pile which gives it more than the ordinary service, woven in one solid piece without any seams whatever, making it wear uniformly and lie perfectly flat. Has 3½ inch turn-over on ends.

Made by one of America's largest and most reputable mills and guaranteed equal in every respect to any 9x12 rug of similar grade regularly retailing for \$17.00.

We consider this design one of the most attractive we have ever procured, made in the following two sizes only.

- LOT NO. 20-AW-226. Size 9x12 feet.....\$10.99
- LOT NO. 20-AW-226. Size 27x52 inches.....93c

**HOW WE DO IT**

Through a fortunate purchase we are able to offer our customer the choice selection of rugs in the market at these exceptionally low prices. This in spite of the conditions prevailing, principally the scarcity of wools and dye stuffs which have naturally forced high prices.

Our unlimited purchasing power enables us to pick up large lots which are impossible to the average dealer in this line of merchandise; it is for this reason that these low prices are made to our customers, insuring us their continuous patronage.

We want every one of our customers to have one of these rugs as well as every one of their friends. **BUY NOW! ORDER AT OUR RISK!** By this we mean that if this rug does not suit you, you may return it and we will refund your money and pay freight charges both ways.

**ANOTHER EXTRA FINE SPECIAL**

You never saw a Superior Brussels Rug of this size at such a price and you probably never will. The saving we afford you is positively the greatest ever made on a rug of this quality.

The pattern and colors are faithfully reproduced from a rare Oriental Serappi Ghorévan and the delicately blended Oriental shades of tan, ivory, myrtle green, maroon and brown will add elegance to any room; the general effect is most pleasing and refined.

**\$13<sup>95</sup>**

Buy this beautiful, fine quality, 9x12, Seamless Brussels Rug. It is not only one of the handsomest Oriental design rugs ever produced, but it is of a quality which will give you satisfactory long wear.

This is due to the extreme closeness of the weave and absence of any seams. The entire wearing surface or face is of pure long drawn worsted yarns. The dyes are selected for their fastness and beauty. Heavy turn-overs at ends. Will lie perfectly flat.
